REFERENCE POINT:

Nizhniy Tagil RR Station, Yards and Shops, City, [REDACTED]  
57°54'36"N-60°00'00"E.

LOCATION:

11 nm north of reference point.

FUNCTION:

One of the sites deployed for the defense of Nizhniy Tagil.

SITE STATUS:

Mid stage of construction.

REMARKS:

Initial excavation of the six launch pits, and the guidance area revetments has been completed. The foundations are being laid for the administration building and two barracks. Several pyramidal tents and a small building are probably being used by construction personnel. Initial grading of the service roads has been completed. Site is situated on relatively flat terrain in a wooded area. A SAM support facility under construction 14.5 nm to the south probably will serve the site.
